

Chapter 8 Predicting Products Worksheet

For the following equations, identify the type of chemical reaction, predict the products and balance the chemical equation. Equations can be synthesis, decomposition, single displacement, double displacement or combustion.

9. Type of reaction: D

10. Type of reaction: SR

11. Type of reaction: DR

12. Type of reaction: DR

13. Type of reaction: C

14. Type of reaction: DR

15. Type of reaction: S

16. Type of reaction: D

17. Type of reaction: SR

18. Type of reaction: DR
